

The City of Sylvania 2010 Sidewalk Leveling Program

Dear Homeowner,

On August 2, 2010 our company, CLI Concrete Leveling, Inc. will begin a sidewalk leveling project on the public walk in front of some of the homes in your neighborhood. This is a project that is being paid for by the City of Sylvania. Any questions regarding this should be directed to the City of Sylvania at: [\(419\)-885-8946](tel:419-885-8946).

The work consists of drilling one inch holes thru the surface of the concrete sidewalk and hydraulically pumping an environmentally friendly material below the slabs of concrete, raising them up to match flush with the adjacent slabs, thus eliminating the trip area. The holes are then patched and the area is cleaned up. This process is minimally invasive and will not affect surrounding landscape or yards. Once the leveling is completed and rinsed down, the sidewalk is ready for immediate use.

The project will require us to be in your vicinity for the next four weeks. The purpose of this project is to eliminate the unsafe offsets or "trip hazards" that are currently present in some areas.

If you have any questions or concerns regarding this process, please feel free to contact our office at [866-538-3546](tel:866-538-3546) or visit our website at www.CLIconcreteLeveling.com. We also offer a variety of residential services and commercial work including **concrete leveling, joint sealing and foundation repair (bowed walls, waterproofing)**. This includes sidewalks, driveways, patios, steps, pool decks or garage floors, or interior floors in your home that may be unlevel or unsafe. **Please see one of our crew members or call us at: (866) 538-3546 to get your quote now.** If we can be of any assistance to you in these areas, don't hesitate to contact us for a cost free analysis of your problem.

Thank you.
