

Partners for Clean Streams

Community Projects 2011

Partners for Clean Streams (PCS) is committed to making our area streams healthy and safe. One of the ways PCS is accomplishing this is through our annual community events. These events engage the community by providing hands-on opportunities for them to help our environment. Join PCS in improving our community, improving our streams. Come on out to one of our events and get involved.

CLEAN YOUR STREAMS

Tired of all the trash along the streams in the area? Help PCS and its Partners clean our area streambanks. Over 67 tons of trash was collected in the first thirteen years from local streambanks. Interesting items such as no dumping sign, upright piano, Star Wars bobblehead, fence with beer cans attached,

home plate, x-ray film, kitchen drawer, and door knobs were found last year and hauled away for proper disposal. Volunteer to remove litter and see what you can find.

Get Involved

GIVE WATER A HAND STORM DRAIN MARKING

The program allows groups, organizations or individuals to partner with local jurisdictions to mark storm drain inlets. The marking lets people know that storm drains lead straight to our local waterways and do not get "cleaned" by a treatment plant. Anything that goes in a drain comes out in the nearest stream, which in our area leads to Lake Erie - our area's primary source for drinking water.

JOIN US!

- MARCH 6 9TH ANNUAL PARTNERING FOR CLEAN STREAMS YOUTH PATCH WORKSHOP
- APRIL 16 GIVE WATER A HAND STORM DRAIN MARKING EVENT FOR GLOBAL YOUTH SERVICE DAY
- MAY - JUNE 7TH ANNUAL GET THE LEAD OUT!
- SEPT 17 15TH ANNUAL CLEAN YOUR STREAMS DAY

WATCH THE PCS WEBSITE FOR MORE DETAILS AS THEY BECOME AVAILABLE

GET THE LEAD OUT!

This cleanup program is to remove the fishing line, lead lures and trash that has accumulated in and along the banks of the Maumee River. This program runs over several weeks making it less weather and water-level dependant than some of our other programs. It is flexible to fit your group's schedule. After registering with PCS, pick up your GLO Kit with cleanup supplies, and go collect lead sinkers, fishing line and cleanup our river!

Make a Difference!
